

## Electrically Conductive Rubber Bolt Hole Swivel Castor Brake 125mm 100kg

**Product code: SSM125GRECBH12SWB**

Grade 304 Stainless steel swivel castor with a 12mm bolt hole fitted with a grey electrically conductive tyre on a black polypropylene centred wheel with plain bore and a total lock brake. Wheel diameter 125mm, tread width 32mm, overall height 156mm, Load capacity 80kg. Conductive offers a resistance  $R < 10 \Omega$

|                          |                                               |
|--------------------------|-----------------------------------------------|
| Diameter (mm)            | 125                                           |
| Fixing Option            | Bolt Hole                                     |
| Castor Type              | Swivel with Total Lock Brake                  |
| Height (mm)              | 156                                           |
| Wheel Material           | Rubber on Polypropylene                       |
| Colour / Shore Hardness  | Grey Rubber on Polypropylene Rim / 85 Shore A |
| Bearing Type             | Plain                                         |
| Tread (mm)               | 32                                            |
| Fork Thickness (mm)      | 2                                             |
| To Suit Fixing Bolt (mm) | 12                                            |
| Load Capacity (kg)       | 100                                           |
| Temperature Resistance   | -15 °C TO +80 °C                              |
| Head Dia (mm)            | 57                                            |
| Swivel Radius (mm)       | 107                                           |
| Castor Material          | Stainless Steel                               |
