

Heavy Duty 20tonne Steerable Skate

Product code: SKSTSK20HD-COMPLETE

A heavy duty steerable skate for moving very heavy machinery and equipment loads of up to 20tonne (20,000kg) on a regular basis. An ideal, very robust unit for the professional user due to the tough powder-coating, heavy-gauge steel frame and high quality components.

- Helps to protect the floor via the large diameter rollers
- Load slippage risk is reduced via the rubber non-slip pad
- Easy to steer around tight bends due to the high quality thrust bearing under the platform
- Easier to manoeuvre due to the one metre draw bar
- Combine with the [HD 20tonne adjustable skate](#) to double the total load rating to 24tonne. Other load ratings available

Please note: The finish colour supplied may differ from that illustrated.

Handle bar length inc eye	1620mm
Roller size Diameter x W	140mm x 85mm
Rotating platform diameter	250mm
Number of rollers	16
Weight	188Kg
Length	1050mm
Load capacity	20000Kg
Height	180mm
Width	750mm
Skate/jack type	Machine skates
