

Polyurethane Cast Iron Plate Swivel Castor 100mm 200kg Load

Product code: JAB100PTBJ

Open screw thread jacking castor with side fitting nuts with 160mm lift fitted with a 100mm white zinc plated swivel pressed steel castor with a brown polyurethane tyred cast iron centred wheel with ball bearing with a load capacity of 200kg Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units. 1 extra safety point is when jacked up please beware of any obstacles as a sudden shock could result in bending the thread but more likely the castor will tear away from the screw thread. Please refer to the BIL catalogue or request a drawing
