Removable Handle Nylon Plate Swivel Castor 150mm 1000kg Load

Product code: JAZHSK150NYBJRH

Side winding jacking unit (removable handle) with maximum lift of 200mm fitted with a Fabricated swivel castor with a top plate fixing fitted with a white nylon wheel with ball bearings. Wheel diameter 150mm, tread width 45mm, maximum Load for the complete unit is capacity 1000kg. Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units. for other dimensions please refer to the BIL catalogue or request a drawing. When jacked up to the height please be aware of any obstacles as a sudden shock could result in the inner square tube bending around the outer tube. DO NOT OVERWIND Handle excessively more than what is needed as this will cause the pin in the gearbox to shear. (This is a safety precaution against over loading the unit)
