Description:
 JAB80NP
 Open screw thread jacking castor with side fitting nuts with 160mm lift fitted with a 80mm white zinc plated swivel pressed steel castor with a red polyurethane tyred white nylon centred wheel with a plain bore and a load capacity of 140kg Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units.1 extra safety point is when jacked up please beware of any obstacles as a sudden shock could result in bending the thread but more likely the castor will tear away from the screw thread.

	NAME	DATE
