**Description:**  
 JAZHS125NYBJ

Side winding jacking unit with maximum lift of 200mm fitted with a Fabricated swivel castor with a top plate fixing fitted with a white nylon wheel with ball bearings. Wheel diameter 125mm, tread width 45mm, maximum Load for the complete unit is capacity 600kg. Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units. When jacked up to the height please beware of any obstacles as a sudden shock could result in the inner square tube bending around the outer tube.
